ENVIRONMENTALLY RESPONSIBLE

Investment in R&D&I is fundamental for us, and we have our own department dedicated to innovation, to which we allocate 0.5% of our turnover.

ISO 9001
LL-C (Certification)

ecca
pre-painted metal.eu
ecca-Gruppe Deutschland e.V.

We are **ISO 9001** certified, which guarantees the quality of our work, and we are members of the **European Coil Coating Association (ECCA)**.

Throughout our production process we are able to **recycle 95% of the fluids we use, both water and chemicals**. In addition, all the harmful gases generated end up in an incinerator.

THE IMPROVEMENTS
ADDED TO THE
PRODUCTION PROCESS
MEAN THAT **VIALCO'S
ENVIRONMENTAL
IMPACT IS MINIMAL**,
PRODUCING A BALANCE
IN PERFECT SYMBIOSIS.

SECTORS OF ACTIVITY

OUR SOLUTIONS

We have a unique production line, the most advanced in our sector worldwide. We offer **maximum performance with maximum efficiency**, taking care of the environment and the community which we belong to, since our plant is designed to generate no waste.

We are specialists in the manufacture of high quality painted and lacquered aluminium coils and we work in the following sectors of activity:

- Coil lacquering of metal products such as steel, galvanised, zinc and, in particular, aluminium
- Adhesive coatings
- Single and double sided lacquering
- Film coating
- Strip cutting of metal products in coils
- Manufacture of shutter slats
- Aluminium boxes
- Acoustic panels
- Aluminium guttering
- Composite Panel

MORGAR

ALUMINIUM METAL RECYCLING

**Ofreciendo las mejores
soluciones y servicios a nuestros
proveedores y clientes**

Más de 30 años nos avalan en el sector del reciclaje,
especializados en aluminio posproducción.

Dando las mejores soluciones, el mejor servicio y valorización
posible al deshecho generado por nuestros proveedores.

ALUMINIUM

Temper	H44, H46 and H48 after painting
Thickness	0,18 -1,5 mm
Width	50-1.500 mm
Inner diameter	506 and 610 mm
Outer diameter	MAX 2.000 mm

COATING DETAILS

1.

We apply any solvent-based paint, according to EN 10169, at13523 and ECCA and NCCA recommendations:

- Polyurethane
- Epoxy
- Polyamide (PUPA)
- HDPE
- VHDFE
- PURPA

Thicknesses:

- Primer (top side) minimum 3 µm maximum 8 µm
- Back Coat (back side) minimum 4 µm maximum 12 µm
- Final (top side) minimum 10 µm maximum 30 µm

2.

We use coatings such as film and adhesives

CUTTING AND PACKAGING

We have a modern **cutting line** that can perform cuts up to 150m/s, which allows us to adapt to the requirements of each of our customers, creating a **fully customised final product**.
